IACES 2021 – MADRID

INTERNATIONAL ADVANCED COURSE ON ELBOW SURGERY

WELCOME ADDRESS

Dear friends,

We cordially invite you to participate in the face-to-face 5th International Advanced Course on Elbow Surgery that will be held in Madrid (Spain), on November 3-5, 2021 at the Melia Castilla Hotel.

After much thought, meditation and hesitation we have finally decided to help overcome some of the effects of the COVID pandemic by returning to a face-to-face meeting. Obviously, we will take all precautions to comply with strict COVID guidelines and rules that may be present at the time of the Course. We will also be vigilant to changes in such directives as the pandemic evolves.

IACES could not be as successful as it has been in the past without each and everyone of you. After so many webinars and teleconferences, we feel more than ever the need for real live interaction and are really eager to see each one of you back in Madrid, to learn from you and enjoy and friendship.

As in prior editions, the meeting will consist of scientific sessions, live surgery, symposia and presentations of clinical cases. You will be able to share your experience and knowledge with delegates from all over the world. Any original research which will form the basis of therapeutic innovation in the future is more than welcome. Please, have a look at the attached preliminary program to determine whether you are comfortable with your assigned contributions in talks and moderations.

We know that the meeting is close and we are contacting you in short advance, but we sincerely hope you will find our invitation engaging. We promise our best effort to build a fantastic meeting, and be sure we will stretch ourselves to provide you with some of Madrid's best social evenings, that is, going back to normal...

Best regards
